Helping you and your family find support resources when you need them.

[redinerescue.org](http://redinerescue.org)

Redline Rescue grew out of one firefighter's commitment to resiliency and recovery through connectivity to the community.

This mission is built on the foundation of connecting firefighters and their families to trained peer providers and culturally competent clinicians in their times of need.

Through education and community, this movement helps provide the support needed to deliver sustainable healing for the fire service family.
